SUMMARY

- An IT professional with more than 7.5 years of experience in Software development. The experience comprises of designing and developing JEE, MS Sql, MySql based Applications, Product Implementation.
- Studied the existing system and Understanding Business Requirements.
- Technically Efficient in **Java, JEE, Spring 4.x, Struts 1.x, RESTful Web Services, Hibernate 4.x, MS Sql, MySql.**
- Ability to Implement Design Patterns like **Singleton, Factory, Dao, Aggregator Delegation.**
- Good understanding on **Component** and **Microservices** based architecture.
- Team Worker with good interpersonal, communication and fast learning skills. Highly adaptive to any type of work environment and technology.
- Enjoy new challenges and willing to take on extra responsibilities to get the work done.
- Excellent analytical, problem solving and communication skills with ability to interact with individuals at all levels.
- Supervising the smooth implementation of the project at the Client location.

TECHNICAL SKILLS

Primary Skills	Java, JEE, RESTful Web Services, Struts 1.x, Spring 4.x, Microservice, SpringBoot, Hibernate 4.x, Tomcat, Weblogic
Secondary Skills	Database (PL/SQL, Functions)
Operating System	Windows, Linux
Database	MySql, MS Sql
Tools	Eclipse, SVN, Git, Maven, Log4J, JUnit, Putty, WinSCP, SQLyog, WinMerge, Jira, Bitbucket, Splunk, Openshift, Redis, Logstash, Docker, Jboss

EDUCATION

Degree	College/University
Master of Computer Applications (MCA)	Biju Patanaik University of Technology, Odisha, India

PROFESSIONAL SUMMARY

- Member of Technical Staff at Amadeus Software Labs India Pvt Ltd, Bangalore from October 2018 – Till Date.
- Senior Software Engineer at Tech Mahindra, Bangalore from June 2018 – September 2018.
- Senior Software Engineer at Exabit Systems Pvt. Ltd., Bangalore from November 2014 – June 2018.

EXPERIENCE SUMMARY

PROJECT PROFILE 1

Project Title	Passenger Service System (PSS Air Canada)
Client	Air Canada
Technology	Spring, RestFull Services, JAXB, MS SQL, Weblogic Openshift, Redis, Logstash, Docker, Jboss
Duration	October 2018 – Till Date
Location	Amadeus Software Labs India Pvt Ltd, Bangalore

PROJECT DESCRIPTION

Air Canada PSS, which is a Cloud supported online booking platform allows to book flight tickets. It is an orchestration layer which talks with various Amadeus products to accomplish the user needs. Along with booking user is also allowed to modify and upgrade any existing PNR. As part of Servicing, PSS platform enables the user to select additional services required during the journey line Meal, Lounge, Preferred Seat. Also, the platform helps in minimizing the human interference during cancellation of the ticket or any disruption to help the user with refund process.

ROLES AND RESPONSIBILITIES IN THE PROJECT

- Analyzing documentation for understanding requirement.
- Coordinating with various product teams and client to accomplish the task.
- Used Spring features like Dependency injection, Scheduler.
- Developed Business Service Interfaces and their implementations.
- Orchestrating product features on need basis.
- Participated in Performance related activities.
- Conducting technical and functional session.

PROJECT PROFILE 2

Project Title	Gramonnati
Client	Gramonnati
Technology	Spring, WebServices(Jersey Implementation), Hibernate, Jquery , Ajax , Angular2, SQL, Unix Shell Scripting
Duration	February 2017 – June 2018
Location	Exabit Systems Pvt. Ltd., Bangalore

PROJECT DESCRIPTION

Gramonnati is a social enterprise supporting holistic and sustainable rural development. This is achieved by creating a strong and scalable knowledge platform for rural India for relevant technology solutions, rural innovation and traditional practices and nurturing rural entrepreneurship and leadership at grass-root level. Some of the domains covered as part of rural development are Rural Education, Rural entrepreneurship, Renewable Energy, Precision Agriculture.

ROLES AND RESPONSIBILITIES IN THE PROJECT

- Spring Rest with hibernate as persistent layer.
- Analyzing documentation for understanding requirement.
- Participated in all project related configuration.
- Developed Business Service Interfaces and their implementations.
- Implemented the design patterns like Singleton, Dao.
- Writing DAO's and their implementations with Hibernate JPA.
- Implemented RESTful Web Service.

PROJECT PROFILE 3

Project Title	TactiX
Client	Exabit Systems Pvt. Ltd.
Technology	Spring, RESTful Web Services, Hibernate, JQuery , Ajax , SQL,PL/ SQL, Unix Shell Scripting
Duration	Nov 2014 – June 2018
Location	Exabit Systems Pvt. Ltd., Bangalore

PROJECT DESCRIPTION

Software platform that comes with different modules for managing post-harvest and pre-harvest processes like cultivation process defining helps the crops growing with integration of robotics field with the application. The Reporting module has also been designed in this project in which Business Analysis Reports on Purchase and Sales Analysis were getting generated through which the users can take decisions and those reports are very flexible and customized. The users can generate reports based on all item's basis or some particular item.

ROLES AND RESPONSIBILITIES IN THE PROJECT

- Spring MVC with hibernate as persistent layer.
- Analyzing documentation for understanding requirement.
- Participated in configuring project related configuration.
- Used Spring features like dependency injection, Transaction management.
- Developed Business Service Interfaces and their implementations.
